

Throughout the manual you select on this CD, there are DANGER, WARNING and CAUTION markers that call your attention to some action or operation you must/must not do for specified reasons. The marker definitions are:

**Indicates a strong possibility of severe bodily injury or death if you do not follow the instructions.**

**Indicates a strong possibility of personal injury, property damage or damage to the vehicle.**

**Indicates a strong possibility of damage to the vehicle, vehicle components, or service equipment.**

This manual is compiled for the safety and guidance of trained and qualified technicians [“the Technicians”] undertaking repairs to the motor vehicles identified herein to enable the Technicians to diagnose, repair and/or maintain the vehicle in a sound, proper and fit condition for use by its owner/operator and occupants, and for use on public and private roads and related areas, and for no other purpose. In particular, unqualified and/or untrained persons must not undertake any repair with the DANGER, WARNING or CAUTION for the specified reasons.

By clicking on the I Agree button below to open this manual you are indicating:

1. Your full and complete understanding of the markers above and the information these markers provide;
2. Acceptance of your responsibility for your actions in relation to the contents of this manual;
3. Your fitness, by virtue of training and qualifications, to perform the work intended;
4. Your commitment to use this manual in the intended manner.
