WHAT IS COVERED

NEW VEHICLE LIMITED WARRANTY COVERAGE AND TERM

MMNA warrants that all parts of this Vehicle supplied by MMNA (except batteries, adjustments required as a result of a manufacturing deficiency, tires and items listed under the headings “OTHERS”, “ADDITIONAL COVERAGE”, and “WHAT IS NOT COVERED”) are free from defects in materials or workmanship at the time of delivery. If such a defect in materials or workmanship appears during the first 5 years or 60,000 odometer miles, the part will be repaired or replaced by any Authorized Mitsubishi Motors Dealer or Authorized Service Center, using new or remanufactured Authorized Mitsubishi parts. The remedy described above shall be the sole and exclusive remedy for breach of warranty, either express or implied.

Labor to test, remove and install the warranty replacement battery will be covered at 100%. A battery that is merely discharged is not considered to be defective.

DAMAGE CAUSED BY IMPROPER MAINTENANCE OR FAILURE TO FOLLOW THE RECOMMENDED MAINTENANCE SCHEDULE

The repair of damages, which are caused because parts or services used were not those prescribed in this booklet's recommended maintenance schedule, are not covered under warranty. It is the owner's responsibility to maintain the Vehicle as more fully set forth in, and in accordance with, the maintenance schedules outlined in this booklet. Be advised that Warranty coverage may be denied if proper maintenance is not followed.

IMPORTANT- For Lancer Evolution Owners only : THE USE OF FULLY SYNTHETIC 10W-30 MOTOR OIL WITH THE ILSAC CERTIFI- CATION SYMBOL IS REQUIRED.

The Mitsubishi Lancer Evolution requires the use of **fully synthetic 10W-30 motor oil with the ILSAC certification symbol**. Fully synthetic 10W-30 motor oil with the ILSAC certification symbol is required for all oil changes and for any oil added between oil changes.

It is important that you:

- **DO NOT USE CONVENTIONAL PETROLEUM BASED MOTOR OIL.**
- **DO NOT USE "BLENDS" OF CONVENTIONAL OIL AND SYNTHETIC OIL.**
- **USE ONLY FULLY SYNTHETIC 10W-30 MOTOR OIL WITH THE ILSAC CERTIFICATION SYMBOL.**

NOTICE:

If you cannot find oils with the ILSAC certification symbol, use fully synthetic oil with an API classification SL, SL/CF or higher.

SAE 5W-30 fully synthetic engine oil can be used to improve engine startability in very cold weather areas where the lowest atmospheric temperature is below -10°F (-23°C).

The use of conventional motor oils may cause engine or turbocharger damage that is not covered by your warranty.

If the approved SAE 10W-30 (or SAE 5W-30) fully synthetic motor oil is not used, any oil related engine or turbocharger failure, along with any peripheral engine or powertrain damage, will not be considered a warrantable condition.

Parts and labor needed to maintain the vehicle and the replacement of parts due to normal wear and tear are not covered by warranty and are the owner's responsibility (unless those costs result from a warranty covered repair).

Examples are:

- Brake pads/shoes
- Clutch disc facings
- Wiper blades
- Lubrication
- Engine tune-ups
- Replacing filters, coolant or fuses
- Replacing spark plugs
- Cleaning and polishing

PAINT AND OTHER APPEARANCE ITEMS

Defects in paint, trim or other appearance items are normally noted and corrected during the new vehicle inspection. For your protection, should you find any paint or appearance item which you suspect is defective, advise your Authorized Mitsubishi Motors Dealer without delay, as normal deterioration due to use and exposure is not covered by this warranty.

OTHER

Incidental or consequential damages such as loss of use of Vehicle, loss of time, inconvenience, expense for gasoline, telephone, travel or lodging, loss or damage to personal property, commercial loss of revenue or other matters not specifically included are not covered.

WARRANTY REPAIR ORDER

If you should have warranty service performed on this Vehicle, you are entitled to receive a copy of the repair order listing the warranty service performed. **RETAIN THESE COPIES FOR YOUR RECORDS.**

Receipts covering the performance of maintenance services should be retained in the event questions arise concerning maintenance. These receipts should be transferred to each subsequent owner of this vehicle. MMNA reserves the right to deny warranty coverage if the vehicle has not been properly maintained. However, denial will not be based solely on the absence of maintenance records.

PRODUCTION CHANGES

MMNA and its Authorized Mitsubishi Motors Dealers reserve the right to make changes in Vehicles sold by them at any time without incurring any obligation to make the same or similar changes on Vehicles previously sold by them.

ANTI-CORROSION PERFORATION LIMITED WARRANTY

MMNA warrants to the owner of each 2005 Mitsubishi vehicle that any Authorized Mitsubishi Motors Dealer or Authorized Service Center will repair or replace at no charge any body sheet metal panel found to have developed perforation (metal rust-through) due to corrosion in normal use.

In addition, outer panel rust-through protection coverage is extended as follows:

- New 2005 Vehicles are covered for 7 years or 100,000 odometer miles, whichever occurs first.

It is the owner's responsibility under the terms of this warranty to maintain the Vehicle as specified in this booklet and in the Owner's Manual.

NOTE

This anti-corrosion perforation warranty covers perforation due to corrosion only. Perforation means a rust-through condition, such as an actual hole in a sheet metal panel.

This Limited Warranty applies only to Mitsubishi passenger cars and sport utility vehicles that are registered in the United States and normally operated in the United States or temporarily traveling in Canada or Puerto Rico.

THIS WARRANTY DOES NOT COVER:

- Corrosion due to accident, damage, abuse, abnormal use, Vehicle alteration or failure to properly maintain this Vehicle
- Payments for loss of use of the Vehicle during warranty repairs
- Surface corrosion, such as that caused by industrial fallout, sand, salt, hail and stones
- Corrosion due to extensive and/or abnormal transportation of corrosive material such as, but not limited to, chemicals, acid, fertilizer
- Corrosion other than perforation (metal rust-through) due to defects in material or workmanship that is otherwise covered by the 5 years or 60,000 odometer miles MMNA New Vehicle Limited Warranty
- The section titled "OTHER TERMS" stated in the MMNA New Vehicle Limited Warranty also applies to this limited warranty.

THINGS YOU SHOULD KNOW ABOUT YOUR MMNA ANTI-CORROSION PERFORATION LIMITED WARRANTY:**REPAIRING YOUR MITSUBISHI VEHICLE**

If your Vehicle is damaged and requires sheet metal repair or replacement, be sure anti-corrosion materials are applied to the parts repaired or replaced.

MAINTAINING YOUR MITSUBISHI VEHICLE**Washing:**

The best way to preserve your Vehicle's finish and aid in avoiding rust is to keep the Vehicle clean by washing it frequently. Wash the Vehicle only with lukewarm or cold water. Do not wash the Vehicle in the direct rays of the sun, or use strong soap or chemical detergents. Any cleaning agents used should be washed off promptly and not allowed to dry on the finish.

Foreign Material Deposits:

Calcium chloride and other salts, ice melting agents, road oil and tar, tree sap, bird droppings, chemicals from industrial chimneys, acid rain, and other foreign matter may damage the Vehicle finish if left on the painted surfaces. Prompt washing may not completely remove all these deposits.

Additional cleaners may be needed. When using chemical cleaners developed for this purpose, be sure they are safe for use on painted surfaces.

Underbody Maintenance:

Corrosive materials used for ice removal and dust control can collect on underbody surfaces. If these materials are not removed, accelerated corrosion can occur on the underbody parts, such as fuel lines, frame, floor pan and exhaust system. At least twice a year, thoroughly flush these materials from the underbody with plain water. Take care to clean any areas where mud and other debris can collect.

Finish Damage:

Any stone chips, fractures or deep scratches in the finish should be repaired promptly. Bare metal will corrode quickly and can develop into a major repair expense. Minor chips and scratches can be repaired with touch-up materials available from your Authorized Mitsubishi Motors Dealer or Authorized Service Center.

FEDERAL EMISSION WARRANTY

FEDERAL EMISSION CONTROL SYSTEM DEFECT WARRANTY

MMNA warrants to the owner of each new 2005 Mitsubishi vehicle, (1) that the Vehicle, was designed, built and equipped so as to conform at the time of sale to applicable regulations of the National Emission Standards Act, as amended, and (2) the Vehicle is free from defects in material and workmanship at the time of sale which would cause the Vehicle to fail to conform with such regulations for a period of **5 years or 60,000 odometer miles**, whichever occurs first. MMNA additionally warrants the Engine Control Module, Transmission Control Module, Catalytic Converter(s) and Onboard Emission Diagnostic Device for 8 years or 80,000 odometer miles, whichever occurs first.

Any part of this Vehicle covered under this limited emission defect warranty and which proves to be defective will be repaired or replaced at no charge by any Authorized Mitsubishi Motors Dealer or Authorized Service Center, using new or remanufactured Authorized Mitsubishi Motors Parts. The limited warranty period begins on the date of original retail delivery or original use, whichever occurs first.

This limited emission defect warranty shall not apply to parts other than Authorized Mitsubishi Motors Parts.

FEDERAL EMISSION CONTROL SYSTEM PERFORMANCE WARRANTY

Some states and local jurisdictions have established periodic vehicle inspection and maintenance (I/M) programs to encourage proper maintenance of your Vehicle.

If an I/M Program in your area has EPA approval, you may be eligible for MMNA's performance warranty coverage under the following conditions:

- 1. The Vehicle has been maintained and operated in accordance with the scheduled maintenance instructions described in this booklet and Owner's Manual provided with your Vehicle.**
- 2. The Vehicle fails to conform for a period of 2 years or 24,000 odometer miles, whichever occurs first, to the applicable emission standards of the U.S. Environmental Protection Agency, as judged by an EPA approved I/M Test.**
MMNA additionally warrants the Engine Control Module, Transmission Control Module, Catalytic Converter(s) and Onboard Emission Diagnostic Device for 8 years or 80,000 odometer miles, whichever occurs first.
- 3. The failure to conform to I/M test standards may result in the owner of the Vehicle having to bear a penalty or other sanctions, including the denial or the right to use the Vehicle under local, state or federal law.**

If all the foregoing conditions are met, MMNA warrants that any Authorized Mitsubishi Motors Dealer or Authorized Service Center will replace, repair or adjust to Mitsubishi's specifications at no charge, any of the components listed below or parts thereof, which may be necessary to cause your Vehicle to conform to the applicable emission standards. Parts "Certified to EPA Standards" shall be covered by this performance warranty. This performance warranty period begins on the date of original retail delivery or original use, whichever occurs first.

NOTE

Vehicles equipped with a California Certified Emission Control System and registered in the states of California, Massachusetts, Vermont or Maine are also entitled to the California Emission Warranty. (See page 18 of this booklet.)

FEDERAL EMISSION WARRANTY

THINGS YOU SHOULD KNOWABOUT BOTH THE EMISSION CONTROL SYSTEM DEFECT WARRANTY AND THE EMISSION CONTROL SYSTEM PERFORMANCE WARRANTY

The emission control system of your new 2005 Mitsubishi vehicle was designed, built and tested using Authorized Mitsubishi Motors Parts and the Vehicle is certified as being in conformity with applicable emission regulations. Accordingly, it is recommended that any replacement parts used for maintenance or for the repair of emission control systems be new or remanufactured Authorized Mitsubishi Motors Parts.

THE WARRANTY OBLIGATIONS ARE NOT DEPENDENT UPON THE USE OF ANY PARTICULAR BRAND OF REPLACEMENT PART. THE OWNER MAY ELECT TO USE NON-AUTHORIZED MITSUBISHI MOTORS PARTS FOR REPLACEMENT PURPOSES. THE USE OF REPLACEMENT PARTS WHICH ARE NOT EQUIVALENT MAY IMPAIR THE EFFECTIVENESS OF EMISSION CONTROL SYSTEMS.

If other than Authorized Mitsubishi Motors Parts are used for maintenance replacements or for the repair of components affecting emission control, the owner should determine that such parts are warranted by the manufacturer to be equivalent to Authorized Mitsubishi Motors Parts in performance and durability.

MAINTENANCE REPLACEMENT OR REPAIR OF THE EMISSION CONTROL DEVICES AND SYSTEMS MAY BE PERFORMED BY ANY QUALIFIED AUTOMOTIVE REPAIR ESTABLISHMENT OR INDIVIDUAL USING ANY PART CERTIFIED PURSUANT TO APPLICABLE EMISSION REGULATIONS; HOWEVER, WARRANTY SERVICE MUST BE PERFORMED BY AN AUTHORIZED MITSUBISHI MOTORS DEALER OR AUTHORIZED SERVICE CENTER.

Claims under the Emission Control Systems Performance Warranty may not be denied due to the failure of a properly installed certified non-Authorized Mitsubishi Motors Part.

Receipts covering the performance of maintenance services should be retained in the event questions arise concerning maintenance. These receipts should be transferred to each subsequent owner of this Vehicle. MMNA reserves the right to deny warranty coverage if the Vehicle has not been properly maintained. However, denial will not be based solely on the absence of maintenance records.

These warranties apply only to Vehicles manufactured to United States specifications and registered and normally operated in the 50 United States and Washington, D.C.

Vehicles manufactured to other specifications or registered and normally operated elsewhere, shall be entitled to service of emission control systems on the basis of the warranty applicable to such other country or territory.

To obtain warranty service under these warranties, the owner should return the Vehicle to an Authorized Mitsubishi Motors Dealer or Authorized Service Center where such service will be performed at no charge for parts and labor.

If an owner's warranty claim under the 2005 Emission Control Systems Performance Warranty is denied, MMNA will provide the owner with a written explanation of why the claim was denied within 30 days unless a shorter time period is required by law. Failure to provide an explanation within the required period may obligate MMNA to remedy the nonconformity under the Emission Control Systems Performance Warranty except:

- When delay is requested by the vehicle owner.
- When delay is caused by factors beyond the control of MMNA or Authorized Mitsubishi Motors Dealers or Authorized Service Centers.

OWNER’S WARRANTY RESPONSIBILITIES:

As the Vehicle owner, you are responsible for the performance of the required maintenance listed in this booklet. MMNA recommends that you retain all receipts covering maintenance on your Vehicle. Coverage will not be denied solely because there is no record of maintenance. However, failures caused by lack of required maintenance are covered by the warranty.

You are responsible for presenting your Vehicle to an Authorized Mitsubishi Motors Dealer or Authorized Service Center as soon as a problem exists.

The warranty repairs should be completed in a reasonable amount of time, not to exceed 30 days.

As the Vehicle owner, you should also be aware that MMNA may deny you warranty coverage if your Vehicle or a part has failed due to abuse, neglect, improper maintenance or unapproved modifications.

If you have any questions regarding your warranty rights and responsibilities, you should contact MMNA’s Customer Relations Department at 1-888-MITSU-2005 (1-888-648-7820) or if in California, the California Air Resources Board, P.O. Box 8001 at 9528 Telstar Avenue, EL Monte CA 91734-8001.

“CALIFORNIA” EMISSION WARRANTY

CALIFORNIA VEHICLE INSPECTION PROGRAM:

If the Vehicle fails an emission test conducted under the Smog Check Program, it should be brought to an Authorized Mitsubishi Motors Dealer or Authorized Service Center for appropriate service. The owner will not be charged for the adjustments, repair or replacement of parts, including diagnosis, necessary to make the Vehicle pass the Smog Check test for 3 years or 50,000 odometer miles, whichever occurs first.

After the 3 years or 50,000 odometer miles performance warranty period has passed, a Smog Check test failure due to a defect in a part which is warranted for either 5 years or 60,000 odometer miles, or 7 years or 70,000 odometer miles is covered.

MMNA additionally warrants the Engine Control Module, Transmission Control Module, Catalytic Converter(s) and Onboard Emission Diagnostic Device for 8 years or 80,000 odometer miles, whichever occurs first. If as the result of a vehicle inspection failure the owner elects to have the vehicle repaired at an independent service outlet, MMNA will not reimburse the owner for service performed by the independent service outlet unless such work is deemed an “EMERGENCY SERVICE” and the repair is a covered item under the terms of the Emission Control Warranty. (See topic “EMERGENCY SERVICE”).

WARRANTY SERVICE:

To obtain warranty service, the owner must return the Vehicle to any Authorized Mitsubishi Motors Dealer or Authorized Service Center where such service will be performed at no charge to the owner. In case of emergency, see EMERGENCY SERVICE instructions. If you are not notified by the dealer within 30 days that the repair is not covered under warranty, then MMNA must repair the Vehicle free of charge. In addition, the owner should take a copy of the Smog Check test printout to the dealer when obtaining warranty service.

EXCLUSIONS:

This Warranty shall not apply to failures caused by abuse, neglect or improper maintenance. Nor shall this Warranty apply to any vehicle on which the odometer mileage has been altered so that the Vehicle’s actual mileage cannot be determined. **Vehicles registered in states other than in California, Massachusetts, Vermont and Maine shall be entitled to the emission control system warranty issued pursuant to the Federal Clean Air Act.** This Warranty and any other warranties otherwise expressed under applicable California emissions laws and regulations are the only warranties in addition to the standard MMNA Warranty in the warranty statement applicable to the Vehicle, and are EXPRESSLY IN LIEU OF ANY WARRANTY OR CONDITIONS IMPLIED IN LAW PERTAINING TO EMISSION OR EMISSION CONTROLS SYSTEMS. No dealer, or any agent or employee thereof, is authorized to extend or enlarge this warranty.

DEFECT WARRANTY:

MMNA warrants to the owner that the Vehicle certified for sale in California, Massachusetts, Vermont or Maine is designed, built and equipped to conform with all applicable regulations adopted by the California Air Resources Board. For the 5 years/60,000 odometer miles Defects Warranty, if any part which can affect emissions fails, MMNA will repair or replace it at an Authorized Mitsubishi Motors Dealer or Authorized Service Center. Any other parts damaged by the failure of a defective part will also be repaired or replaced. Listed below are some of the parts covered by the warranty. WHAT THE OWNER MUST DO:

It is the owner's responsibility to have the required maintenance performed and use the Vehicle in accordance with MMNA's written instructions. Coverage WILL NOT be denied solely because there is no record of maintenance. However, failures caused by lack of required maintenance are not covered by the warranty. To avoid questions as to whether the vehicle maintenance has been performed, MMNA urges that the owner retain all receipts and/or maintenance records' indicating that service has been performed on the vehicle and these receipts and maintenance records should be transferred to any subsequent owner of the vehicle.

SERVICE:

MAINTENANCE SERVICE CAN BE PERFORMED BY ANY QUALIFIED SERVICE OUTLET OR BY THE OWNER OR BY SOMEONE OF THE OWNER'S CHOOSING. HOWEVER, WARRANTY SERVICE MUST BE PERFORMED BY AN AUTHORIZED MITSUBISHI MOTORS DEALER OR SERVICE CENTER, IN ORDER TO BE PERFORMED AT NO CHARGE TO YOU.

“CALIFORNIA” EMISSION WARRANTY

PARTS:

IT IS RECOMMENDED THAT ANY REPLACEMENT PARTS USED FOR MAINTENANCE OR FOR THE REPAIR OF THE EMISSION CONTROL SYSTEMS BE NEW OR REMANUFACTURED, AUTHORIZED MITSUBISHI MOTORS PARTS.

However, the warranty obligations ARE NOT dependent upon the use of any particular brand of replacement parts. The owner may elect to use non-Authorized Mitsubishi Motors Parts for replacement purposes. Use of replacement parts which are not of equivalent quality to Authorized Mitsubishi Motors Parts may impair the effectiveness of emission control systems.

NOTE

“New or Remanufactured Authorized Mitsubishi Motors Parts” when used in connection with Mitsubishi vehicles, means parts manufactured by or approved by MITSUBISHI, designed for use on Mitsubishi vehicles and distributed by MMNA or any division or subsidiary of MMNA.

WHAT IS NOT COVERED:

The Warranty does not cover:

- Malfunction in any part caused by abuse, misuse, alteration, tampering, disconnection or improper or inadequate maintenance.
- Damage to catalytic converters or oxygen sensors due to use of leaded gasoline or any additives.
- Damage resulting from fire, accident, negligence, acts of God or other events beyond the control of MMNA.
- Maintenance replacement parts (such as spark plugs) beyond the first scheduled replacement point.
- Incidental or consequential damages such as loss of use of the vehicle, loss of time, inconvenience, expenses for gasoline, telephone, travel or lodging.
- Any vehicle on which the odometer mileage has been altered so that actual vehicle mileage cannot readily be determined.
- Loss or damage to personal property, loss of revenue, commercial loss.
- Damages resulting from a defect in a part not designated by MMNA; see owner responsibilities stated above.

EMERGENCY SERVICE:

If emergency emission control system warranty service is required and the owner is unable to readily locate an Authorized Mitsubishi Motors Dealer or Authorized Service Center or if a warranted part is not available within 30 days, then, repairs may be performed at any available service establishment, or by the owner, using any replacement part.

MMNA will reimburse the owner for the owner's expenses including diagnostic charges for such emergency repair or replacement at MMNA's suggested retail price for all warranted parts replaced and labor charges based on the MMNA's recommended time allowance for the warranty repair and the geographically appropriate hourly labor rate. Replaced parts and copies of paid original receipts must be available for presentation to MMNA as a condition of reimbursement for these emergency repairs. In addition, the owner must provide MMNA a detailed description indicating why the situation was considered an emergency and why an Authorized Mitsubishi Motors Dealer or Authorized Service Center was not available. Additional information may be obtained by calling 1-888-MITSU-2005 (1-888-648-7820). A repair not being completed within 30 days due to the inability to obtain a warranted part or the unavailability of an authorized Mitsubishi Motors Dealer or Authorized Service Center constitutes an emergency.

NOTICE TO CONSUMERS

NOTICE TO CONSUMERS

Mitsubishi Motors North America, Inc. (MMNA) is committed to assuring your satisfaction with your vehicle.

If you have a concern that is not resolved to your satisfaction, we encourage you to use Mitsubishi's informal third party "**Dispute Resolution Process**", available for additional assistance. The Process is administered by the National Center for Dispute Settlement (NCDS). While you may utilize the process at any time, we suggest that you first utilize Mitsubishi Motors normal complaint handling process: first tell the dealer your concern; if the dealer can not resolve your concern, contact Mitsubishi Motors Customer Relations at 1-888-MITSU-2005 (1-888-648-7820).

A Mitsubishi regional representative will work with you to address your concern. If you wish to pursue the matter further, submit an application (which can be found in the Dispute Resolution Process Brochure), describing your concern to:

National Center for Dispute Settlement
Dispute Resolution Process
P. O. Box 561109
Dallas, Texas 75356-1109
1-866-937-3765

A copy of the Dispute Resolution Process brochure can be found in the glove box of your new vehicle.

To file a claim, complete the Dispute Resolution Process application, which includes the following information:

- **Your name and address,**
- **Your vehicle model and Vehicle Information Number (VIN), and**
- **The nature of your concern.**

Once your claim is submitted, NCDS will review your request for arbitration and inform you if your concern is within jurisdiction of the Dispute Resolution Process. If your concern is within the jurisdiction of the Process, it will be referred by NCDS to an independent arbitrator for hearing, if you request an oral hearing; or to a three-person arbitration panel for decision, if you request a 'documents-only' review (Arkansas customers may choose a single arbitrator or panel regardless of format). The arbitrator or panel will render a decision on your case. If you accept the decision it will be binding on MMNA. The entire process will normally take no longer than forty (40) days from the date your application is received to the date the decision is rendered.

In the event your vehicle does not conform to MMNA's express warranty after a reasonable number of repair attempts, the federal Magnuson-Moss Warranty Act and state lemon laws permit owners to obtain a replacement vehicle or a refund of the purchase price under certain circumstances. The provisions of state laws vary from state to state.

Some states require that written notification be given to the manufacturer before the consumer may be eligible for a refund

or replacement vehicle. Therefore, MMNA requests that you first provide us with written notification of any such non conformities, so that we may have an opportunity to make final repairs to the vehicle before you pursue lemon law remedies. There may be times when MMNA will pay all or part of the cost of certain repairs beyond the terms of the warranty. Check with your local dealer to determine if this applies to your vehicle.

Wisconsin Vehicle Owners: In the state of Wisconsin, you must use NCDS prior to seeking remedies available to you through a court action pursuant to the Magnuson-Moss Warranty Act. In addition, you must use NCDS prior to seeking remedies under the Wisconsin Lemon Law.

For further information contact: WisDot Dealer Section / P.O. Box 7909 / Madison / WI / 53707-7909 / 608-266-1425 / dealers.dmv@dot.state.wi.us.

OTHER TERMS

ANY IMPLIED WARRANTY APPLICABLE TO THIS VEHICLE IS LIMITED IN DURATION TO THE LENGTH OF THIS WRITTEN WARRANTY. MMNA SHALL NOT BE LIABLE FOR ANY INCIDENTAL, CONSEQUENTIAL, SPECIAL OR EXEMPLARY DAMAGES FOR BREACH OF THIS WARRANTY OR ANY IMPLIED WARRANTY.

Some states do not allow the exclusion or limitation of incidental or consequential damages or limitation on how long an implied warranty lasts, or limitations on available remedies, so the above limitations or exclusions may not apply to you. This warranty gives the owner specific legal rights and the owner may also have other rights which vary by state.

U.S. territories and possessions (Except Puerto Rico and U.S. Virgin Islands)

THINGS YOU SHOULD KNOW ABOUT YOUR MITSUBISHI ANTI-CORROSION PERFORATION LIMITED WARRANTY:

REPAIRING YOUR MITSUBISHI VEHICLE

If your Vehicle is damaged and requires sheet metal repair or replacement, be sure anti-corrosion materials are applied to the parts repaired or replaced.

MAINTAINING YOUR MITSUBISHI VEHICLE

Washing:

The best way to preserve your Vehicle's finish and aid in avoiding rust is to keep the Vehicle clean by washing it frequently. Wash the Vehicle only with lukewarm or cold water. Do not wash the Vehicle in the direct rays of the sun, or use strong soap or chemical detergents. Any cleaning agents used should be washed off promptly and not allowed to dry on the finish.

Foreign Material Deposits:

Calcium chloride and other salts, ice melting agents, road oil and tar, tree sap, bird droppings, chemicals from industrial chimneys, acid rain, and other foreign matter may damage the Vehicle finish if left on the painted surfaces. Prompt washing may not completely remove all these deposits. Additional cleaners may be needed. When using chemical cleaners developed for this purpose, be sure they are safe for use on painted surfaces.

Underbody Maintenance:

Corrosive materials used for ice removal and dust control can collect on underbody surfaces. If these materials are not removed, accelerated corrosion can occur on the underbody parts, such as fuel lines, frame, floor pan and exhaust system.

At least twice a year, thoroughly flush these materials from the underbody with plain water. Take care to clean any areas where mud and other debris can collect.

Finish Damage:

Any stone chips, fractures or deep scratches in the finish should be repaired promptly.

Bare metal will corrode quickly and can develop into a major repair expense. Minor chips and scratches can be repaired with touch-up materials available from your Authorized Mitsubishi Motors Dealer or Authorized Service Center.

2005 EMISSION CONTROL SYSTEM DEFECT WARRANTY

MITSUBISHI warrants to the owner of each new 2005 MITSUBISHI Vehicle, (1) that the Vehicle, was designed, built and equipped so as to conform at the time of sale to applicable regulations of the National Emission Standards Act, as amended, and (2) the Vehicle is free from defects in material and workmanship at the time of sale which would cause the Vehicle to fail to conform with such regulations for a period of 5 years or 60,000 miles, whichever occurs first.

MITSUBISHI additionally warrants the Engine Control Module, Transmission Control Module, Catalytic Converter(s) and Onboard Emission Diagnostic Device for 8 years or 80,000 miles, whichever occurs first.

Any part of this Vehicle covered under this limited emission defect warranty and which proves to be defective will be repaired or replaced at no charge by any Authorized Mitsubishi Motors Dealer or Authorized Service Center, using new or remanufactured Authorized Mitsubishi Motors Parts. The limited warranty period begins on the date of original retail delivery or original use, whichever occurs first.

This limited emission defect warranty shall not apply to parts other than Authorized Mitsubishi Motors Parts.

2005 EMISSION CONTROL SYSTEM PERFORMANCE WARRANTY

Some states and local jurisdictions have established periodic vehicle inspection and maintenance (I/M) programs to encourage proper maintenance of your Vehicle.

If an I/M Program in your area has EPA approval, you may be eligible for MITSUBISHI's performance warranty coverage under the following conditions:

1. The Vehicle has been maintained and operated in accordance with the scheduled maintenance instructions described in this booklet provided with your Vehicle.
2. The Vehicle fails to conform for a period of 2 years or 24,000 miles, whichever occurs first, to the applicable emission standards of the U.S. Environmental Protection Agency, as judged by an EPA approved I/M Test. MITSUBISHI additionally warrants the Engine Control Module, Transmission Control Module, Catalytic Converter(s) and Onboard Emission Diagnostic Device for 8 years or 80,000 miles, whichever occurs first.
3. The failure to conform results, or will result, in the owner of the Vehicle having to bear a penalty or other sanctions, including the denial or the right to use the Vehicle under local, state or federal law.

If all the foregoing conditions are met, MITSUBISHI warrants that any Authorized Mitsubishi Motors Dealer or Authorized Service Center will replace, repair or adjust to MITSUBISHI's specifications at no charge, any of the components listed below or parts thereof, which may be necessary to cause your Vehicle to conform to the applicable emission standards. Parts "Certified to EPA Standards" shall be covered by this performance warranty. This performance warranty period begins on the date of original retail delivery or original use, whichever occurs first.

WHAT IS NOT COVERED

- Noncompliance caused by defective replacement parts not certified in accordance with aftermarket parts certification regulations.
- Noncompliance caused by the use of replacement parts not equivalent to original equipment parts.

Other provisions specified under the "WHAT IS NOT COVERED" section in the New Vehicle Limited Warranty are also applicable to this warranty.

THE EMISSION CONTROL SYSTEM DEFECT WARRANTY AND THE EMISSION CONTROL SYSTEM PERFORMANCE WARRANTY SHALL NOT APPLY TO:

- Conditions resulting from contaminated fuel, misuse, improper adjustments, modifications, accidents, alterations, tampering, acts of God, improper or inadequate maintenance, or failure to use recommended fuel
- The replacement of maintenance parts used in regular maintenance services
- Loss of time, inconvenience, loss of use of the Vehicle, or other consequential damages
- Any Vehicle on which the odometer reading has been changed so that mileage cannot be readily determined.

MITSUBISHI does not authorize any person to create for it any other obligations or liability in connection with these systems. These warranties are in addition to MITSUBISHI's New Vehicle Limited Warranty for 2005 Vehicles.

THINGS YOU SHOULD KNOW ABOUT BOTH THE EMISSION CONTROL SYSTEM DEFECT WARRANTY AND THE EMISSION CONTROL SYSTEM PERFORMANCE WARRANTY

The emission control system of your new 2005 MITSUBISHI Vehicle was designed, built and tested using Authorized Mitsubishi Motors Parts and the Vehicle is certified as being in conformity with applicable emission regulations. Accordingly, it is recommended that any replacement parts used for maintenance or for the repair of emission control systems be new or remanufactured Authorized Mitsubishi Motors Parts.

THE WARRANTY OBLIGATIONS ARE NOT DEPENDENT UPON THE USE OF ANY PARTICULAR BRAND OF REPLACEMENT PART. THE OWNER MAY ELECT TO USE NON-AUTHORIZED MITSUBISHI MOTORS PARTS FOR REPLACEMENT PURPOSES. THE USE OF REPLACEMENT PARTS WHICH ARE NOT EQUIVALENT MAY IMPAIR THE EFFECTIVENESS OF EMISSION CONTROL SYSTEMS.

If other than Authorized Mitsubishi Motors Parts are used for maintenance replacements or for the repair of components affecting emission control, the owner should determine that such parts are warranted by the manufacturer to be equivalent to Authorized Mitsubishi Motors Parts in performance and durability.

MAINTENANCE REPLACEMENT OR REPAIR OF THE EMISSION CONTROL DEVICES AND SYSTEMS MAY BE PERFORMED BY ANY QUALIFIED AUTOMOTIVE REPAIR ESTABLISHMENT OR INDIVIDUAL USING ANY PART CERTIFIED PURSUANT TO APPLICABLE EMISSION REGULATIONS; HOWEVER, WARRANTY SERVICE MUST BE PERFORMED BY AN AUTHORIZED MITSUBISHI MOTORS DEALER OR AUTHORIZED SERVICE CENTER.

Claims under the Emission Control Systems Performance Warranty may not be denied due to the failure of a properly installed certified non-Authorized Mitsubishi Motors Part.

Receipts covering the performance of maintenance services should be retained in the event questions arise concerning maintenance. These receipts should be transferred to each subsequent owner of this Vehicle. MITSUBISHI reserves the right to deny warranty coverage if the Vehicle has not been properly maintained. However, denial will not be based solely on the absence of maintenance records. These warranties apply only to Vehicles manufactured to United States specifications and registered and normally operated in the United States territories and possessions.

Vehicles manufactured to other specifications or registered and normally operated elsewhere, shall be entitled to service of emission control systems on the basis of the warranty applicable to such other country.

U.S. territories and possessions (Except Puerto Rico and U.S. Virgin Islands)

To obtain warranty service under these warranties, the owner should return the Vehicle to an Authorized Mitsubishi Motors Dealer or Authorized Service Center where such service will be performed at no charge for parts and labor.

If an owner's warranty claim under the 2005 Emission Control Systems Performance Warranty is denied, MITSUBISHI will provide the owner with a written explanation of why the claim was denied within 30 days unless a shorter time period is required by law. Failure to provide an explanation within the required period may obligate MITSUBISHI to remedy the nonconformity under the Emission Control Systems Performance Warranty except:

* When delay is requested by the vehicle owner.

* When delay is caused by factors beyond the control of MITSUBISHI or Authorized Mitsubishi Motors Dealers or Authorized Service Centers.

Selecting the proper maintenance schedule

There are two maintenance schedules that show proper service for your vehicle.

Regardless of which maintenance schedule you follow, the use of fully synthetic motor oil is required. See "Engine Oil and Filter" in the Owner's Manual for details on motor oil requirements.

First is "**Regular maintenance schedule**".

Follow the Regular maintenance schedule only if none of the driving conditions in the Severe maintenance section apply.

Second is "**Severe maintenance schedule**".

Follow the severe maintenance schedule only if your vehicle is frequently driven under one or more of the following road conditions.

- Driving on dusty, rough, muddy or salt-spread roads
- Towing or police, taxi or commercial operation
- Extensive idling and /or low speed operation
- Repeated short-trip operation at freezing temperatures (engine not thoroughly warmed up)
- Extended use of brakes while driving
- Driving in sandy areas
- More than 50% operation in heavy city traffic during hot weather above 90°F (32°C)

CALIFORNIA, MASSACHUSETTS, VERMONT and MAINE ONLY:

Regular maintenance schedules; replace air cleaner filter at 15,000 mile intervals and replace timing belt, balancer belt (if equipped on your vehicle) at 60,000 mile intervals. These are recommended but are not required to maintain the emissions warranty.

FEDERAL:

Regular maintenance schedules; check fuel system for leaks, check fuel hoses condition, check and service exhaust system at 30,000 mile intervals.

These are recommended but are not required to maintain the emission warranty.

Emission control system maintenance

The “scheduled” maintenance services, listed in **bold type** must be done at the times or mileages specified to assure the continued proper functioning of the emission control system. These, and all other maintenance services included in this manual, should be done to provide the best vehicle performance and reliability. More frequent maintenance may be needed for vehicles in severe operating conditions such as dusty areas and very short trip driving. Inspection and service also should be done any time a malfunction is suspected.

Service station checks

The following items should be inspected by either you or a service station attendant each time fuel is added:

- Engine oil level. Add if needed. Check Owner’s Manual-See index and look under “Engine Oil” for detailed information.
- Engine coolant level. Add coolant to reservoir tank along with the proper mix if needed. Replace coolant if dirty or rusty in color. Check Owner’s Manual-See index and look under “Coolant” for detailed information.
- Windshield washer fluid level. Add fluid to washer tank if necessary.
- Tire inspection. Inspect for unusual tire wear and proper inflation. Check Owner’s Manual-See index and look under “Tire” for detailed information.
