

# Owner's Handbook

**OUTLANDER**

PLEASE PLACE COPIES OF THE FOLLOWING ITEMS IN THE POCKET BELOW:

1. Pre-Delivery Inspection Form (Customer Copy)
2. Triple Diamond Delivery Checklist (Customer Copy)
3. Salesperson or Key Dealership Contact's Business Card

Thank you for buying a Mitsubishi Outlander. There's no doubt you've already realized how well your car drives on the open road. What you may not know is all the great features that help your car perform the way it does. In the pages ahead we're going to run through the basics and prepare you for the road.

We'd also love to hear from you about your overall Mitsubishi experience. If you haven't already, please log on to [www.MitsubishiSSIsurvey.com](http://www.MitsubishiSSIsurvey.com) and tell us how we did. This will help us make sure your next visit is that much better.

We hope you will visit the Mitsubishi Owner's site where we store the latest Mitsubishi news and special offers. Here you can also keep track of your car's warranty and servicing needs, get Roadside Assistance Information and tap into other owner-centric details. Just log on to [www.Mitsubishicars.com/ownersonly](http://www.Mitsubishicars.com/ownersonly).

#### “How-To” Videos

Scan this QR code with your smartphone or key in to your internet enabled device [mitsubishicars.com/howtoqr](http://mitsubishicars.com/howtoqr) to access brief “How-To” videos regarding specific features on your new Outlander. Here you will find simple instructions to help make your ownership experience more enjoyable.

## Regular Headlights

## Automatic Headlights

- Headlights and other lights on.
- Parking, tail, front and rear sidemarkers, license plate and instrument panel lights on.
- AUTO** Headlights and other lights turn on and off automatically in accordance with outside light level.
- OFF** All lights off

## Air Conditioning (Automatic shown)

- A** - Turn for Temperature control
- B** - Push to select outside air (Indicator light off) or recirculated air (Indicator light on)
- C** - Turn to select the blower speed
- D** - Push for air conditioning ON/OFF
- E** - Turn to select the air flow and direction mode (AUTO position is only auto type air conditioning)
- F** - Push to defog the rear windows.

## To defog front windshield

- Set the Temperature **A** to desired setting.
- Set the blower speed **C** to highest position.
- Set the Mode **E** to defrost position.

## Windshield Wipers

- The wipers will operate once.
- INT:** Intermittent intervals can be adjusted by turning the knob **A**
- AUTO:** The wipers will be operated automatically by rain sensor (if so equipped).
- LO** - Slow
- HI** - Fast

## Rear Window Wiper and Washer

- Turn the knob **B** to operate the rear window wiper.
- The wiper operates continuously for several seconds then operates intermittently at intervals of about 8 seconds.
- Washer fluid is sprayed, the wiper will automatically operate 2 or 3 times.

## Paddle Shifters (if so equipped)

Simply upshift or downshift with a tap of your fingers - without moving your hands from the steering wheel.

You can return to the "D" operation by pulling the + (SHIFT UP) side paddle shifter rearwards (toward the driver) and holding for over **2 seconds**.

## Cruise Control

- A - CANCEL:** To deactivate the cruise control
- B - ACC RES:** To increase the set speed
- C - COAST SET:** To set the desired speed and to reduce the set speed.
- D - ON / OFF:** To ON/OFF cruise control

## To set a cruising speed

- Press **D** and the "CRUISE" indicator light in the meter cluster will be turned on.
- Accelerate or decelerate to your desired speed (above 25 mph). Press **C** and remove your foot from the accelerator pedal.

## To accelerate or decelerate speed

Press **B** to increase set cruising speed.  
Press **C** to decrease set cruising speed.

## To cancel the cruising speed

Press **A** or press brake pedal, or press **D**.

## Drive Mode Selector (if equipped)

The drive mode can be switched by turning the dial while the ignition switch is in the ON position. The following drive modes are available:

**2WD:** This mode is for economical driving on normal dry roads and freeways.

**4WD AUTO:** This mode is for all driving conditions on various roads.

**4WD LOCK:** This mode is for driving in slippery conditions such as on snow-covered roads or sand.

## Clock

## To set the time

- Press and hold **A** and the clock display flashes.
- Press **C** to set the "Hours".
- Press **D** to set the "Minutes".
- Press **B** to stop the clock display from flashing.

## Seat Heater Switch

## Position - Action

- 1 (HI)** - For quick heating
- 2** - Heater off
- 3 (LO)** - To keep the seat warm

Point of Interest (POI) Name

- 1 Press the [MENU] key to display.
- 2 Touch [Point of Interest].

- 3 Input the "State" and "City"

- 4 Touch [All Categories]

- 5 Touch the category of the desired POI and category type to select.

- 6 Touch [All POIs]

- 7 Input the POI name

- 8 Touch [Set]

**Way Points** – Once you have set a destination, you can enter additional stops along the way called Way Points. For details on how to set Way Points refer to your Navigation Owner's Manual.

**Saving Addresses** - To save an address, first enter the address into the system. Then touch [Address Book] and confirm location to be stored. Touch [Set to Address Book] to complete.

Searching for a Location by Address / Location

- 1 Press the [MENU] key to display.
- 2 Touch [Address/Intersection].

- 3 Touch the "State" and "City" button

- 5 Touch [All Streets]

- 6 Input the street name

- 4 Input the "State" and "City" name

- 8 Touch House # or intersection

- 9 Touch [Set]

- 7 Touch [List] to select a street from the list

### To enter frequencies into the memory (AM/FM/SAT)

1. Press **A** to turn on the audio system.
2. Press **B** to select CD.
3. Press **C** to select the desired band (AM/FM/SAT).

4. Turn **D** to desired frequency you wish to keep in the memory.
5. Press one of the Memory select buttons **E** (1-6) until it beeps.

### Loading a CD

1. Press the **LOAD** button **F** briefly.
2. The autochanger will show "WAIT" on the display and start making itself ready for disc loading.
3. When the autochanger is ready for disc loading, the **LOAD** indicator will illuminate and the display will show "LOAD DISC No. (1-6)".
4. When a disc is inserted into the CD slot, the disc will begin to play.

### Audio Remote Control Switch (if equipped)

**VOLUME**  
UP  
DOWN

**SEEK**  
Change station or track

**MODE**  
Change the audio source

**NOTE:** Please refer to your Owner's Manual (Page 5-46) for more detailed information on how to use your audio system.

### USB and iPod Input (if so equipped)

1. Park your vehicle in a safe place and turn the ignition.
2. Connect the cable ① (cable is not included with the vehicle) to the USB memory device ② or the Dock connector ① to the iPod ③.
3. Open the cover ④ in the floor console box. Connect the cable ① to the USB input terminal ⑤.
4. Turn the ignition switch to the "ACC" position. Press **A** to turn on the audio system.
5. Press **B** several times to switch to the USB mode. The input mode changes as follows:  
**CD → USB → Bluetooth® (if equipped)**
6. Depending on your USB device, it may take longer for playback to start.
7. Once the device is selected, playback starts.

**NOTE:** You can select desired tracks from the "Playlist", "Artists", "Album" or "Songs" menus stored in your iPod or desired folder in your USB memory device. Turn the FOLDER button and press the FOLDER button.

### Keyless Entry System

[F.A.S.T. Key]

#### LOCK

Press: Once - Lock all doors

#### UNLOCK

Press: Once - Unlock driver door  
Twice - Unlock all doors

#### PANIC

Press and hold. Press any button to turn off panic.

[Normal Key]

While carrying the F.A.S.T. key, press the driver's or front passenger's door lock/unlock switch **A**.

### Multi-information Meter Switch (INFO Button)

Change element by pushing the INFO button: Warnings, Odometer/Tripmeter, Service reminder, Engine coolant temperature, Average and momentary fuel consumption, Driving range and average speed, etc. Pulling up the emergency brake offers additional choices.

### Tire Pressure Monitoring System (TPMS)

The Tire Pressure Monitoring System gives you information to help maintain your tire pressure. Please note that changes in the outside temperature may decrease tire pressure causing the TPMS light to turn on. If the TPMS light remains illuminated, check your tire pressure.

Warning light illuminates when tire pressure is too low.

Contact MITSUBISHI dealer. (May be a TPMS system issue or malfunction.)

### ECO Driving

SE and GT Trims

When the ECO indicator light is on, your current driving style supports good fuel economy.

(if so equipped)

**Getting Started:**

Before using FUSE the first time, press the **HELP** button. This will walk you through some tips and help set-up your voice recognition profile.

For a list of compatible Bluetooth® devices please go to <http://www.mitsubishicars.com/MMNA/jsp/owners-site/technology-features.do>

**A SPEECH button:**  
Change to voice recognition

**B PICK-UP button:**  
Answer an incoming call

**C HANG-UP button**  
End a call or voice recognition

**To pair a Bluetooth® enabled device:**

1. Park your vehicle in a safe location.
2. Press **A** button and Say **“Setup.”**
3. Say **“Pairing Options”**
4. The voice guide says: **“Select one of the following: pair, edit, delete, or list.”**
5. Say **“Pair.”**
6. The voice guide says **“Please say a 4-digit pairing code.”**
7. Say a 4-digit number **“XXXX.”**
8. When the confirmation function is on, the system will confirm whether the number said is acceptable. Answer **“Yes.”**
9. The voice guide says “Start pairing procedure on the device. See the device manual for instructions.” Enter in the Bluetooth® device the 4-digit number you have registered in step 8.

**Making a call by using the telephone number:**

1. Press **A** button and Say “Dial.”
2. The voice guide says **“Number please.”**
3. Say the telephone number **“XXX•••••.”**
4. The voice guide says **“Dialing <number recognized>.”**

**Making a call using a phonebook:**

1. Press **A** button and Say **“Call.”**
2. After the voice guide says **“Name please.”** Say the name you want to call **“XXX•••••.”**
3. If there is only 1 match, the voice guide says **“Calling <name>”** and then the system will dial the telephone number.

**Receiving calls:**

1. If an incoming phone call is received while the ignition switch is in the “ACC” or “ON” position, with the audio system OFF, the audio system automatically turns ON.
2. Press **B** button.

**Hanging up a call:**

1. Press **C** button.

**To import a devices phonebook:**

1. Press **A** button and Say **“Phonebook.”**
2. The voice guide will say “Select one of the following: new entry, edit number, edit name, list names, delete, erase all, or import contact.” Say **“Import contact.”**
3. The voice guide will say “Would you like to import a single entry or all contact?” Say **“All contacts.”**
4. The voice guide will say “Importing the contact list from the mobile phonebook. This may take several minutes to complete. Would you like to continue?” Answer **“Yes.”**
5. When the import is complete, the voice guide will say “Import complete.”

If you are having difficulties operating your phone or connecting to the system, please call Mitsubishi Handsfree at **(888) 702-4100.**

**To fold out the third row seat**

- Open the lower tailgate.
- From the rear of the vehicle, **A** pull up the cover.
- Secure the cover to the seatback with the strap **B**.

- Pull on the strap **C** on the center of the seatback to raise the seatback upright.

- Pull the **black** strap **D** to release the lock.
- Tilt the third row seat assembly backward.

- Pull the head restraints.
- Press the lock knob **F** then insert the head restraints into the seatback.

- Lift up and push forward so that the third row seat is firmly secured.

**To stow the third row seat**

- Open the lower tailgate.
- From the rear of the vehicle, **A** pull up the cover .
- Secure the cover to the **B** seatback with the strap

- While pulling the **gray** strap **E**, move the third row seat backward and downward to the floor by holding the top of the seat back.
- If it is difficult to lock the seat in place, return to its original position, and then lock it in place by pushing down while pulling with more force on the strap.
- Tilt the seat assembly forward.
- Press the lock knob **F**, then pull the head restraint up and out of the seatback.

- Store the head restraints in the front of the seatback by inserting the knob **G** in the hole **H**.

- While pulling on the strap **C** on the center of the seatback, fold the seatback down.

12	FAQ's	FAQ's	13
	<p><b>Q: Is my phone compatible with the factory Mitsubishi Bluetooth® Hands Free System?</b></p> <p>A: Check the phone approval list, <a href="http://www.mitsubishicars.com/owners">www.mitsubishicars.com/owners</a> to see if the phone is Bluetooth® approved.</p> <p><b>Q. Why doesn't my device (USB, iPhone, Bluetooth® Audio, etc.) work?</b></p> <p>A: You need to press the Mode button to select the appropriate device you want to use.</p> <p><b>Q: How do I use Bluetooth® Audio (if equipped)?</b></p> <p>A: Turn the Audio System power on. Press the CD button several times until B (Bluetooth®) is shown. Connect your Bluetooth® device via pairing mode. Playback will start automatically.</p> <p><b>Q: How do I transfer calls from Bluetooth® back to my mobile phone's handset?</b></p> <p>A: While on the call, press the speech button on your steering wheel and, once prompted, say "Transfer Call."</p> <p><b>Q: Why does the FUSE Hands-free Link System™ take so long to upload my music from my audio music device?</b></p> <p>A: The Mitsubishi system can read multiple device structures in order to catalog the music files for easy playing and listening. Depending on the amount of music you have on your device, this may take a few minutes.</p> <p><b>Q: What are the different ways of playing music from my portable music player through the stereo system in my vehicle, when equipped with the FUSE Hands-free Link System™?</b></p> <p>A: There are three ways of playing music through your vehicle's sound system.</p> <ul style="list-style-type: none"> <li>• USB port - The FUSE system will find the songs in your device and categorize them according to Artist, Album, and Genre. Then you can have the FUSE system find and play the song in your device that you prefer without physically searching your device. This is done via voice commands.</li> <li>• Bluetooth® Streaming - Once your device is paired to the FUSE system, you can stream music from your device through the FUSE system to your vehicles sound system. No wires or cords. Your music stops and restarts at the same song when you exit and when you re-enter the vehicle. Voice commands are not available.</li> <li>• RCA auxiliary ports - Music can be played through a vehicles stereo system via the head phone port of your music device (An RCA to mini headphone jack adapter cable will be needed) Voice command is not available.</li> </ul> <p><b>Q: Why can't I control the music track selection via voice commands while Bluetooth® streaming?</b></p> <p>A: The Mitsubishi system uses AVRCP 1.3 (Audio video Programing system) which does support song information (title, artist, track, etc.). However, you must have a device that also supports AVRCP 1.3 to supply that information to the Mitsubishi system.</p> <p><b>Q: My Outlander is equipped with "Micron Air Filtration". Where is the filter located and does it need servicing?</b></p> <p>A: The micron air filter is a small filter element which is located in the HVAC box just behind the lower glove box. The filter should be inspected frequently for debris. The filter works well at filtering incoming air however the filter will clog and lead to reduced outlet air volume if not serviced on a regular basis.</p>	<p><b>Q: My Outlander has two 12V accessory outlets. What devices can be plugged into these outlets?</b></p> <p>A: Both of these outlets are protected with 15 amp fuses. Always check the current draw rating of any device prior to use in the vehicle. If the device is rated above 12 amps, this could lead to circuit overload and the electrical fuse opening (no current flow).</p> <p><b>Q: I only have one remote for the remote start system on my Outlander. Can I get a second one?</b></p> <p>A: No. Only one remote can be programmed per vehicle for security reasons.</p> <p><b>Q: How can I get the MPG stated on the window sticker?</b></p> <p>A: Vehicle driving styles will greatly affect MPG. Avoid sudden abrupt starts from a stop and let the vehicle coast to the traffic light. Both of these styles will increase mileage and reduce brake lining wear.</p> <ul style="list-style-type: none"> <li>• Vehicles are designed to achieve the best fuel mileage when they are driven at the speed limits on the freeway. Avoid driving over 65 mph.</li> <li>• Under inflated tires will increase rolling resistance and will reduce fuel mileage. Check tire pressure frequently to increase miles per gallon. Proper tire pressure also ensures optimum tire performance (including tire wear.)</li> </ul> <p><b>Q: How does the Navigation System choose a certain route?</b></p> <p>A: The system takes into account traffic conditions, road types, distance and road width to recommend the route.</p> <p><b>Q: Why does my Anti-Lock Braking System (ABS) make a noise?</b></p> <p>A: Each time your vehicle is started and driven a short distance, you will hear the sound of the ABS motor operating from the right front engine compartment. This is the normal sound the Anti-Lock Braking System makes when performing a self check.</p> <p><b>Q: Why do my Rain Sensing Windshield Wipers operate on their own when it's not raining?</b></p> <p>A: <ul style="list-style-type: none"> <li>• When the lever is in the AUTO position, the rain sensor detects rain or snow and automatically turns on the wipers.</li> <li>• The wipers may automatically operate when things such as insects or foreign objects are affixed to the windshield on top of the rain sensor or when the windshield is frosted over.</li> <li>• To stop the wipers, place the lever in the OFF position.</li> </ul> </p> <p><b>Q: Why does my check engine light come on after I put gas in my car?</b></p> <p>A: There are many reasons why your check engine light may illuminate. Before calling your dealership, make sure the fuel cap is fully engaged and you have heard three clicks when tightening it. After checking and hearing three clicks and the light is still on, contact your dealership.</p> <p><b>Q: How do I use the emergency key when the F.A.S.T. key battery or vehicle battery is run down?</b></p> <p>A: Remove the emergency key from the F.A.S.T key fob and manually unlock the door. Once inside the vehicle remove the ignition switch cover by pressing the release buttons on the top and bottom of the ignition switch cover. Once the ignition switch cover is removed insert the emergency key into the ignition switch then re-insert (backwards) the F.A.S.T. key fob onto the emergency key. Once the F.A.S.T. key fob is re-inserted (backwards) turn the emergency key to start the engine.</p>
